should acquaint himself with provisions of the new state Motor Vehicle Safety-Responsibility Law which becomes effective Jan. 1. This new law has several drastic provisions in it which will save much frustration and heartache, if understood and complied with prior to the dates it goes into operation. Beginning Jan. 1, any person responsible for an automobile accident in which personal or property damage exceeds \$50 will have to settle all claim against him or be suspended from driving. The sus pension is not something which the new law views lightly. It requires that the suspension remain enforced until the responsible party satisfies the claims or gives proof that he will satisfy them. It is not inconceivable that a man who depends on his automobil; for his livelihood will find himself stranded if he is unable to give proof of his financial The new law is designed primarily for two pur-

noses. First, it is for the protection of all citizens. Second, it is hoped it will deny to reckless and fi nancially irresponsible persons the opportunity to injure or damage others.

crimson clover, blue lupine, ladino and lespedeza are painting a prosperous present and a rosy future for the livestock raisers and dairy farmers of the South. These magical crops, which nourish the soil as abundantly as they feed the cattle, are one of many developments that have more than tripled Southern City's agricultural income in the past ten years. The four associated electric power companies of The Southern Company system are working constantly with county agents, universities and agricultural experiment stations to encourage farm mechanization, wider

diversification of crops, greater prosperity for the farmer.

The entire nation is watching Southern City's remarkable progress in agriculture, industry, commerce. Over 100,000 stockholders of The Southern Company, located in every state in the Union, are vitally interested because this progress assures a constant and growing demand for electric power-a demand which, by conservative estimate, will be doubled in the next ten years.

The South and The Southern Company are both growing . . . together! Write the agricultural development departments of any of the four operating companies for further information.
